Making Every Day Earth Day™

3 Steps to a Greener Tree

Use LEDs & light timers:

If every American home switched to LED holiday lights, we'd save \$160 million in energy this season. Bonus: Save more by plugging your lights into a timer.

Rethink your wrapping:

We spend \$2.6 billion annually on gift wrap. Newspapers, magazines & old calendars can be the perfect, recyclable, low-cost alternative.

Find a Treecycler:

30-35 million real trees are sold in the U.S. every year. Visit Earth911.com & use our Local Recycling Directory to find a tree recycler near you.
